

I fear the upcoming implementation of the new broadcast service known as LPFM. My fear is that it will take priority over much of the programming I come to love. K-LOVE is one such radio station. It serves me and many of my friends in and around the Denver area. I know that K-LOVE helps all who listen to it, and therefore consider K-LOVE to be in the public's interest and not be overlooked. Please don't overlook the power and impact K-LOVE has on the Denver area, and don't give priority to LPFM.
